Insider Tips and Secrets to Get The MOST Out of Your Computer OCTOBER 2012 — VOL 9 — ISSUE 10

**Attention St. Louis Business Owners That Are Looking To Upgrade Their Computer Network Within The Next 6 Months:**

## **Don't Let Your Current Computer Guy Scare You Into Spending Thousands Of Potentially Wasted Dollars On That New Upgrade!**

If you're planning on refreshing, expanding or upgrading your computer network within the next 6 months, I'd like to show you a potentially far superior way to get the up-to-date computer network you need without the heavy costs, complexity and problems associated with most IT upgrades. In fact, cloud solutions can lower a client's IT upgrade and maintenance costs.

- √ **Eliminating or drastically reducing** system crashes, slowness, viruses and other annoying technical problems.
- √ **Delivering instant disaster recovery so you'll never lose data** due to a server crash, virus, hardware failure, disgruntled employee, fire or other data-erasing disasters.
- √ **Providing the freedom and flexibility to work from anywhere, anytime** on any device.

### **How Do We Deliver These Results?**

By utilizing smart, efficient cloud computing technologies, we not only simplify IT for your company, but also free you from having to purchase, install and maintain complex, expensive IT systems in house.

### **Free Cloud Readiness Assessment Shows You How To Scare Away That Big Fat Expensive Server Upgrade Bill**

At no cost or obligation, we'll come to your office and conduct a thorough review of your computer network, backups and technologies. We'll analyze how you're working right now and what areas are giving you the most problems. From there, we'll show you a simple, cost-effective plan for upgrading your network to the cloud versus the traditional on-premise server and network you currently have.

Even if you decide NOT to move your network to the cloud, you'll find the information that we share with you to be extremely valuable and eye-opening as you make future decisions about IT.

# How To Upgrade Your Entire Computer Network Without Writing A Big, Cash-Draining Check For A New Server

## See What Our Clients Say!

That's why I have you, so that I don't know to concern myself with any of these problems." –

*Joe, Owner  
at Leritz  
Contracting*

## Claim your FREE Cloud Readiness Assessment to find out!

- √ Whether or not your current business computing requirements are the right fit for moving your network to the cloud.
- √ What considerations your business must overcome before you jump ship to cloud computing (there are a lot of factors to take into account).
- √ How much you can really save by moving your computer network to the cloud.

It's FREE! This "Treat" Comes With No "Tricks" Attached! However, because each Cloud Readiness Assessment takes 4-5 hours to complete and deliver, we must limit this offer to businesses with at least 10 PCs and a Server.
