Insider Tips and Secrets to Get The MOST Out of Your Computer MARCH 2015 • VOL 12 • ISSUE 3

Just Because You've Been LUCKY Enough To Avoid A Cyber-Attack Doesn't Mean You're Not At Risk

Free 15-Point Cyber-Security Audit Will Reveal Where Your Computer Network Is Exposed And How To Protect Your Company Now.

Imagine walking into your office one morning to discover your computer network was breached by a hacker, exposing not only YOUR company's data, but also all of your client records and private communications. Imagine the embarrassment of having to notify your clients and vendors that, because of you, their private and possibly personal information may now be in the hands of cybercriminals. And hopefully that's the only damage done...

Operations could be halted or severely limited for days, possibly weeks. Your data corrupt to the point of being useless. Clients lost. Potential lawsuits and government fines for violating data-breach laws. The exorbitant emergency IT fees to get everything restored to working order fast. Then there's the risk of your bank account being drained dry – and because you're a business, you are NOT protected by the banks in the same way individual consumers are. Any money stolen out of your accounts could simply be gone forever.

I know you're tempted to think, "That won't happen to us. We're just a small company. Who'd want to hack us?"

Which is exactly what cybercriminals WANT you to think!

With St. Patrick's Day this month, I want to take a moment to remind you that just because you've been "lucky" enough to avoid an incident like this in the past doesn't mean you're not at risk – in fact, that's a very dangerous way to think.

That's why during the month of March, we are offering your business a FREE comprehensive Cyber-Security IT Audit that will reveal your exact risk score on over 15 common security loopholes cybercriminals use on a regular basis to get around firewalls and antivirus software to gain entry to your computer network. Normally we charge \$497 for this service, but we've decided to give it away to the first 7 lucky companies who request it by April 15th (Tax Day!). All you have to do is call our office at (314) 993-5528 or go online to www.fixedforever.com/security to request it.

15-Point Cyber-Security Audit Gives You Complete Peace Of Mind

At no cost or obligation, our highly trained team of IT pros will come to your office and conduct a comprehensive Cyber-Security Audit to uncover loopholes in your company's IT security.

After the audit is done, we'll prepare a customized "Report Of Findings" that will reveal specific vulnerabilities and provide a Prioritized Action Plan for getting these security problems addressed fast. This report and action plan should be a real eye-opener for you since almost all of the businesses we've done this for discover they are completely exposed in a number of areas to various threats.

To Get Started And Claim Your Audit,
Go Here Now: www.fixedforever.com/security
or call our office at (314) 993-5528.

Don't delay! Because of the intense one-on-one time required to deliver these Cyber-Security Audits, we can only extend this offer to the first 7 who respond by Tax Day! April 15th 2015
