Insider Tips and Secrets to Get The MOST Out of Your Computer NOVEMBER 2011 • VOL 8 • ISSUE 11

Attention Business Owners:

## If You Are Considering Cloud Computing For Your Company – Don't, Until You Read This...

If you are the owner or executive of a company with 10 to 80 PCs and you're considering cloud computing or Office 365 to save money and simplify IT, it is extremely important that you get and read this new special report: **"Answers To The Top 5 Questions Business Owners Have About Cloud Computing."**

### Discover What Most IT Consultants Don't Know Or Won't Tell You About Moving Your Company's Network To The Cloud

Undoubtedly you've heard all the commotion around cloud computing and how it's the "next big thing." **Yet despite all of the hype, no one really seems to understand what cloud computing is or how it can help your business.**

That's why we wanted to set the record straight and provide business owners and executives with a simple, easy to read report that explains what cloud computing is, how it can (possibly) help your business and, if it can help, what you need to know in order to make good decisions about choosing a cloud vendor.

For some businesses, cloud computing can actually lower IT costs by thousands of dollars, greatly improve the ability for some remote workers to connect and work, simplify IT infrastructure and genuinely solve a number of technology problems that business owners have been trying to work around for years.

Can cloud computing do this for you?

**In this FREE report, you'll discover:**

- ✓ What cloud computing is and why so many small and medium businesses are switching to it versus expensive, server-workstation networks.
- ✓ The security risks you may face when moving your business to the cloud.
- ✓ How cloud computing may eliminate the need for you to purchase new hardware and software in your business, potentially saving you thousands in future expenses.
- ✓ How much (or how little) your internet connection affects whether or not you'll be able to move to the cloud.
- ✓ Real life case studies of local businesses that have already made the move to the cloud; how did they do it and what have been the results?
