Insider Tips and Secrets to Get The MOST Out of Your Computer

OCTOBER 2013—VOL 10—ISSUE 10

7 Reasons Why Getting Rid Of Windows XP Will Likely Exorcise Hidden Gremlins And Goblins Lurking In Your Computer Network

Although many businesses have been getting rid of Windows XP for at least the last 3 years, the fact remains that as of early this year, around 500 million business computers were still running Windows XP. While the witching hour for Windows XP is still a few months away (April 9, 2014), here are 7 of the top reasons running Windows XP should scare any business owner right now:

1. **Tons Of Viruses.** There is a huge library of viruses aimed at Windows XP and limited antivirus support still available.
2. **XP Is OLD** (almost 12 years old!). The 1st iPod was released the same year as Windows XP. In a world where the 5th iPhone has been released, no one should be left using an O/S that pre-dates the 1st iPod!
3. **Least Secure Operating System** (By Far!). ALL other platforms, including Linux, all versions of Mac OS X, Windows 7 and Windows 8 are more secure than XP by a huge margin. Windows Vista is actually a far safer option (scary!).
4. **Built For A Simpler Time.** XP was created for a simpler world of technology. It was formatted to fit to a screen only 640 pixels wide, and it showcased IE6 as a new product. The internet was a different place when XP was developed. Smartphones were non-existent, laptops were a luxury and tablet computers were science fiction.
5. **No More Band-Aids.** Only so many band-aid fixes on top of each other can be effective.
6. **Support Is Ending.** All support of XP will end on April 9, 2014. It's time to replace your systems now while you can plan ahead.
7. **Malware Everywhere.** You can continue to use XP, but with more malware than ever. XP is by far the most vulnerable platform to connect to the internet.

Our Free Service Call Will “Exorcise” The Ghosts, Gremlins & Goblins Causing Problems In Your Computer Network

Our Free Network Assessment (a \$297 value) Will Exorcise The Ghosts, Gremlins and Goblins Causing Problems In Your Computer Network. Good From Now Until Halloween (October 31st).

John Kistler, President

**180 Weldon Parkway
Maryland Heights, MO 63043**

No More Excuses! Our Free Network Assessment Will “Exorcise” The Demons Hiding In Your Computer Network

Why Choose Us?

- **100% Satisfaction Guarantee**
- **Rapid Response Within 60-Minutes or Less**
- **Reliable, Friendly, Knowledgeable Technicians**
- **Availability To Answer Your Questions**
- **“No Geek Speak”**
- **All Projects Completed On Time and On**

Call us between now and Halloween (October 31st) and we will come out to your office for free and...

- Provide a full inventory of all of your computer equipment, including all of your Windows XP machines and the software programs on them.
- Diagnose slow, unstable PC's (whether Windows XP or newer)
- Verify your computer's security patches are up to date and installed properly; miss one critical update and you're a "sitting duck".
- Provide a technology roadmap to rid your company of Windows XP finally and forever, including how to move legacy software systems that still require XP to run!

**To book your Free Network Assessment, call us today at
314-993-5528. Or go online to: www.fixedforever.com/network**

Remember, this offer for a FREE Network Assessment expires on October 31st! You are under no obligation to do or buy anything but you must respond NOW or you will miss out!
