

TECHO—BLOC

INSPIRING ARTSCAPES

Landscape Catalog

Step outside — the ordinary

You're not looking to blend in, but rather stand out from the crowd. We take that philosophy and make it possible in the outdoors, reshaping the idea of what landscapes can look like.

It's this creative spirit that not only defines us but pushes us forward. To design. To inspire. To create products that bring art into your experiences outdoors and ignite each and everyone's spark for design. As outdoor trend-setters, we live to create and breathe life into the materials that will allow design lovers of all styles to transform regular spaces into stand-out-from-the-crowd statements.

Embrace your creativity. Mix and match game-changing high-definition textures with a rich color pallet and surprising plays on scale to create a clearly custom look that is as unique as you. From patios to pool sides and walkways to walls, our imaginative landscaping line-up of paving stones, copings, steps and more, all work together giving you the freedom to refashion outdoor spaces into works of art.

So, if you're cut a little differently – if you believe in breaking the mold – we are confident you'll want to see what we're all about. Ask us what we do, and we'll tell you: “We live to create inspiring artscapes.”

30 Years of breaking the mold

A word from Techo-Bloc's
founder and president,
Charles Ciccarello.

As early as I can remember, I was captivated by the work of my father. He was a landscaper, and I had always admired the craft. At that time, I'd see the same brick-style pavers everywhere I went. No matter how creative we got, we were always limited by the materials. I was hungry for something different and the market was starved of choice.

I started Techo-Bloc as a 26-year-old landscaper with the defiant belief that the landscaping industry and the paving market needed some shaking up. This was my main driver and motivator. I became consumed with the idea of manufacturing better hardscape products; ones with eye-catching colors and different shapes and sizes. We broke the mold of the beloved brick, and we haven't rested since.

This year marks Techo-Bloc's 30 years in business and with that a new logo and brand. True to form, 2020 denotes another year of change, evolution and pushing the boundaries. We've launched some incredibly avant-garde paving stones, wall designs, new technology and revised our packaging to reduce plastic consumption.

Over the years, we've empowered designers, contractors and homeowners with the colors, textures, patterns, design ideas and support to create standout statement-making spaces outdoors. However, it's been our creative vision and bold aesthetics that have allowed us to build an incredible community of like-minded individuals that are redefining what is expected of outdoor design.

Every day I am reminded of the responsibility and the great honour Techo-Bloc has in its piece of the puzzle. Thank you for trusting us. Exchanging with us. Inspiring us.

“We broke the mold of
the beloved brick, and
we haven’t rested since.”

For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Color samples for reference only. Actual product colors may vary.

Midwestern USA encompasses these states: AR, CO, GA, IA, ID, IL, IN, KS, KY, MI, MN, MO, MS, ND, NE, OH, Western PA, SD, TN, WI & WV.
Eastern USA encompasses these states: CT, DE, MA, MD, ME, NC, NH, NJ, NY, Eastern PA, RI, SC, VA & VT.

Noteworthy New Collections

Everest Slab

Veining and texture like you've never seen before in outdoor concrete products, resulting in the most authentic looking slabs, bar none. Fans of gorgeous marble veining, this one is for you. *See page 58*

Pacific Overlay system

Renovate your existing concrete poolside. The Pacific slab and cap are an overlay system that provide a long-lasting upgrade.

See page 69

Fascia Collection — Wall

Retaining walls just became more interesting! Introducing our new Fascia Wall Collection: a customizable collection for the creative in you!

See page 108

The only paver
that checks
all the boxes.

✓ Durability

Who says good looks can't last? Lower absorption rates means it withstands the harshest of climates.

✓ Superior Strength

HD² is the diamond of paving stones, build up to 1.5 times stronger than industry standard.

✓ Ultra-detailed Texture

Ready for a close-up? Tighter surface with less pores for enhanced textures and the smoothest smooth.

✓ Vibrant Color

Natural stones, you've met your match. Rich and natural color blends that stand the test of time against UV rays.

And now... **HD²+**

✓ Extra-Protection

Taking our already cutting-edge technology to the next level. HD²+ has the added benefit of a factory seal for added stain resistance, elevated color boost and a reduced absorption rate.

Keeping things ————— consistent

Monochromatic is making a comeback! We've made selecting your perfect color and sticking to it easy in the outdoors. From walls to pavers and slabs to caps, we have designed our collections in the same colors across different product categories, ensuring continuity in your outdoor space. Including patterns and texture are easy ways to add in some much-needed visual interest. Tip: Refer to our color chart on p. 158 to see which products are available in your preferred color.

Travertina slab in Ivory, p. 65,
Raffinato wall, p. 120 & cap, p. 136 in Beige Cream

Hideaway retreat

Longing for that far-away feeling? With a little clever creativity, you can conjure up a postcard-perfect parallel right in your own backyard. Start from the ground up, with our sand-textured Ocean slabs — then amp up the ambiance with lounge-worthy furniture and linens, rope decor and an outdoor shower with climbing vines.

Ocean Grande slab in Beige Cream, p. 64
& Victorien paver trim in Onyx Black, p. 94

Layer your landscape

Working with a large piece of flat land? Layering your landscape with pavilions or areas with different heights allows you to create intimate areas in your outdoor space. This will create focus around your favorite features such as waterfalls and flower beds or help other features such as hot tubs blend in. It's a dynamic way to keep the eye moving fluidly while telling a singularly chic story.

Raffinato wall in Greyed Nickel & Onyx Black, p. 120,
Raffinato cap in Greyed Nickel, p. 136,
Blu Various sizes slab in Greyed Nickel, p. 52
& Raffinato step in Greyed Nickel, p. 142 (right)

Define your spaces outdoors ---

When it comes to creating rooms outdoors, definition and separation will allow you to showcase your spaces. Infuse function and beauty through contrasting colors, textures and mosaic patterns at ground level that will create separation between dining and lounging. Break up your space even further with a lower firepit area and privacy wall for the ultimate late-night leisure that will convert a standard space into a warm welcome.

Ocean Grande slab in Beige Cream, p. 64 (top right)

Industria slab in Shale Grey, p. 62 &
Victorien paver in Onyx Black, p. 94 (bottom right)

Take a walk ————— on the styled side

From path to pool to firepit, walkways guide us through the design story and lead us right to where we want to go: your property's most inviting spaces. And while simple and straightforward can sometimes be sublime, our creative collection of unique textures, finishes, colors and shapes may inspire you to step to a different beat and wander off in a stunning new style direction.

Custom designs that really stack up

Outdoor spaces you love to live in go well beyond basic these days. Our cleverly coordinated collections come together to create statement-making designs that are truly one-of-a-kind. From custom furniture to al-fresco kitchens, fire features, bars and beyond, we make it possible to create outdoor areas that are everything but cookie-cutter. You'll never have to coax your guests to take the party outside again.

Firepit & bench :
Borealis slab in Riviera, p. 54
& Blu Grande polished slab in
Greyed Nickel, p. 52 (top left)

Kitchen: Brandon wall in Shale Grey,
p. 112 (bottom left)

Table: Graphix wall in Greyed Nickel &
Onyx Black, p. 114 (right)

Para slab in Greyed Nickel, p. 66
& Raffinato cap in Greyed Nickel, p. 136

The luxury of low maintenance

Outdoor spaces are made to be enjoyed. Spend less time caring for them and more time admiring them by incorporating hardscaping elements that help keep maintenance to a minimum. Make high quality stones your highlight and let low-care greenery play a supporting role: It's a perfectly pleasing way to minimize mowing and mulching and maximize your me-time.

Beyond beige

When it comes to continuity, beige can be beautiful. But don't be afraid to step beyond: you can exercise your off-white options by injecting shots of color, texture and scale into that dreamy cream landscape. It's a playful way to add interest, without drawing too far outside the lines.

Custom grill island: Graphix wall in Beige Cream, p. 114
with Borealis wall in Sauvignon Oak, p. 110 (top left)
Borealis slab in Smoked Pine & Sauvignon Oak, p. 54 (top right)
Raffinato wall in Beige Cream & Onyx Black, p. 120 &
Travertina slab in Ivory, p. 65 (bottom left)

Hexa slab in Beige Cream and Chestnut Brown, p. 60
& Westmount paver in Chestnut Brown, p. 95

Custom firepit & bench: Graphix wall in Beige Cream, p. 114
with Borealis wall in Sauvignon Oak, p. 110

The Design Pillars

Color — More than just shades of grey

Play with our palette of coordinating and contrasting hues to inject visual interest and create a customized look that's right on tone.

Carefully deconstructed color play is pure delight for the eye. Create a subtle sense of continuity by experimenting with light and dark shades from the same palette.

Hexa HD²+ Smooth in Beige Cream, Greyed Nickel, Chestnut Brown & Onyx Black

Lay down the line at your home's entrance with strips of contrasting color that lead the way straight to 'welcome'.

Diamond HD² Smooth in Shale Grey paired with Industria 600x100 HD² Granitex in Onyx Black

A strong geometric pattern displays a slightly softer side when built from sophisticated shades of grey.

Industria 600x600 HD² Smooth in Shale Grey, Greyed Nickel and Onyx Black

The Design Pillars

Texture — When it comes to striking spaces, finish first

Creative textures trick the eye and add
a winning touch to every outdoor space,
leading us in bold new directions.

The spectacular woven effect created by smaller, rough-hewn Valet pavers amongst elegant Ocean slabs keeps the eye guessing and your guests swooning.

Ocean Grande HD² in Greyed Nickel paired with Valet in Onyx Black

Square dance: The strikingly wood-like appearance of Borealis slabs fall perfectly into line when partnered with textured Travertina Raw slabs.

Travertina Raw HD² in Ivory paired with Borealis HD² in Hazelnut Brandy

Texture is a brilliant way to add a subtle shakeup to your outdoor floor plan. Laying tone-on-tone but different-textured Diamond pavers in a seemingly random pattern looks at once casual and perfectly polished.

Diamond HD² Granitex in Beige Cream paired with Diamond HD² Smooth in Beige Cream

The Design Pillars

Scale — Try this on for size

Whatever your stone style, spectacular comes in all shapes and sizes. And who says you have to choose? Bring them all into the picture for a mingling melange that never gets stale.

Tiny tiles are back in a big way. Intricately
laid out square pavers trick the eye to
create strikingly large scale impact.

Squadra in Shale Grey
& Onyx Black

Have an affection for a particular collection? Clever combos of size and color in the same stone are a clean way to keep the story consistent while showcasing a little creativity.

Industria HD² Smooth, 600x300 in Greyed Nickel, 600x200 in Shale Grey, 600x100 & 300x150 in Onyx Black

Make a no-holds-barred statement with slim and linear pavers that create gentle movement when set against large stones.

Westmount HD²+ in Shale Grey & Onyx Black paired with Industria 600x600 in Shale Grey

The Design Pillars

The design playground — Mix & match

Shapes and colors. Scales and proportions. Materials and finishes. This is where every element comes to play in a perfectly orchestrated game of style mastery.

Colors

We love naturals. Thoughtful planning of our color selection means that all your favorite shades show up in multiple collections, making it easy for you to mix, match and contrast to your heart's content. Refer to our color chart on p.158 to find which products are available in your favorite colors.

Scale

Mind the scale you're working with. Larger stones are fit for grand spaces while smaller ones are ideal for banding, contouring and mosaics.

Textures

They may be concrete, but we prefer to call them trompe l'œil. These textures trick the eye with surface appearances that range from super smooth to ultra-detailed, and stay true even to the touch.

Pavers — Style in overdrive.

Here's a take on landscape design that will have the neighbors doing a double-take. Our inspiring collection of interlocking paving stones makes it a snap to get creative: the vast selection of shapes, sizes, textures and colors is crafted to pair perfectly with our slab collections as well as your home. But these stones are built on more than just good looks — they're colorfast, salt-resistant and permeable, perfect for going the distance on driveways, walkways and beyond. So hang a welcome sign of a different kind with a stand-out paving stone treatment that adds value to your home!

Permeable Solutions

Eye-catching and eco-friendly.

1

2

3

4

Give new meaning to the term “environmentally conscious” with permeable pavers that are as eye-catching as they are eco-friendly. With all the desirable features of our traditional pavers, plus the added functionality of effective surface water management, permeable pavers are a rock solid way to treat your home environment to an elegant upgrade while keeping the grander environment in mind. Stress less about flooding.

1 **Permeable Paver**

Designed with larger joint space to allow storm water to percolate through.

2 **Small Aggregate** (2.5-10 mm)

Filters out contaminants & debris from the rainwater.

3 **Medium Aggregate** (5-28 mm)

Transition layer that further filters out pollutants.

4 **Large Aggregate** (40-80 mm)

Reservoir layer for rainwater harvesting & the evacuation of excess water through a drain pipe.

Edges — Re-define your outdoor spaces

Discover the double-edged benefits of adding eye-catching stone trim to your outdoor spaces. Not only are they a strikingly simple way to define walkways, gardens and driveways, but they help keep grass, mulch and other landscaping elements in line at the same time. Attractive, functional and durable: sounds borderline perfect!

Walls

Take landscape design to new heights

Craving inspiration for your outdoor space? Our tasteful walls are designed to do more than build up the visual interest of your yard, garden and patio (though they're great at that, too). When creativity comes calling, play with different textures and finishes to create custom features like bars, benches, kitchens and firepits. And to keep it all looking seamlessly coordinated, our wall colors are perfectly matched with our other product collections, ensuring your creations look spectacular from top to bottom.

Fascia Wall *Collection*

A new concept at Techo-Bloc, the Fascia Wall collection allows you to customize your next outdoor space. You can choose between a one-sided, or double-sided wall, allowing you to adapt the product to your project needs and personalize it to your style. Want a more modern look? Opt for the Iconic model. More of the traditional type? We've got you covered with the Rosemont design. From garden walls to outdoor features, and everything in between, the Fascia Wall Collection will bring your landscape design to life. Get in the driver's seat and express your unique style with Techo-Bloc.

Caps — Capping off the great outdoors

When upgrading your outdoor living areas, top them off right with the perfect finishing touches. Our color-coordinated caps and copings add the crowning touch to pool edges, stairs, walls, firepits and more — and best of all, they're as protective as they are attractive.

Steps — Step up your curb appeal

Elevating your landscape design is simple when you follow the right steps. Our stone steps offer a beautiful way to offset spaces, creating natural paths and visual interest in your yards and gardens. Or, boost your home's curb appeal by welcoming guests with a show-stopping entrance right up front. Wherever they lead, our maintenance-free overlay systems are exclusively designed to step in and give new life to timeworn poured concrete.

Outdoor features

A spark of inspiration

When you're entertaining outdoors, create unique spaces that will make your guests want to linger longer. Fire pits, fireplaces, pizza ovens and grill islands act as natural gathering places and become instant conversation starters. Choose from clever or classic finishes (or even try mixing it up a little), in made-to-match colors that harmonize perfectly with our other stone features. So, whether you're seeking clean and contemporary lines or rustic earthy inspiration, evenings by the fire never looked so good.

Pizza ovens

Forno (sold separately)

- Features:**
- Capacity: 4 medium pizzas
 - Stainless Steel Chimney
 - Electro galvanized painted steel
 - Fire brick based insulation
 - Thermometer

Comes with various pizza accessories:

- 37" long wood pizza oven brush
- 42" long wood pizza peel (spatula)

For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Final color selection should be made with your contractor from product samples or at your local dealer from stocked product. This color chart serves as a guide for color selection across product lines.

Important information

A STANDARD OF CARE

The care of high quality concrete products is similar to the care of any product left in the environment 365 days and nights per year. Very mild cleaning using detergents, water and product specific chemicals is necessary and similar to cleaning patio furniture, a vehicle's chrome, plastic, or paint, etc. in order to enhance their presence and charm. Sealers of all types (high, middle, and low sheen, pigmented/tinted, penetrating or film forming) are available for additional protection from acid rain, stains and nature's worst. To get the most from your investments take care of them and they'll take care of you.

For any questions on industry-specific cleaners and sealers, see your local hardscape dealer/distributor, contact your contractor, contact us or search online.

It is contrary to Techo-Bloc's SOP (Standard Operating Procedures) to be involved in the care of a mature pavement or retaining structure. Care as mentioned above is the responsibility of the owner for any and all outdoor products.

NCMA disclaimer: "In areas where segmental retaining walls will be repeatedly exposed to snow (such as from snow plowing operations) consider periodically applying sealants or water repelling chemicals (silane or siloxane compounds) to the wall surface."

COLOR

Due to the inherent nature of printed literature and current digital media, Techo-Bloc cannot guarantee specific colour matching to printed representations of its colour swatches.

Each color option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another. Therefore, colours samples shown are approximate representations of our standard colours and actual product colours may vary.

Final color selection should be made at your local dealer from stocked product. Techo-Bloc always recommends immediately verifying the product and colour upon reception. If there are any discrepancies, contact your local dealer before continuing your project. Installation of the product constitutes your acceptance of the product as is.

EFFLORESCENCE

This warranty does not apply to efflorescence. Efflorescence is a natural occurring process in all concrete products which sometimes appears in the form of a white powdery film on the pavement surface. Efflorescence is more perceivable in darker colours such as Onyx Black and Chocolate Brown as there is a higher level of contrast than with other blended colours. It does not, in any way, compromise the functionality or the structural integrity of the product. Although efflorescence cannot be prevented, it will wash off over time or can be cleaned with efflorescence cleaner. Techo-Bloc accepts no responsibility or liability for this condition.

POLYMERIC HAZE

Polymeric haze from the use of polymeric joint sand may appear on your concrete products if the sand was not removed from the surface of the paver properly. This does not, in any way, affect the integrity of the product or your installation. The hazing will weather away naturally with time and rain. It can be removed with a specialized cleaner; you are advised to contact your contractor or the polymeric sand company used for instructions & recommendations. Techo-Bloc accepts no responsibility or liability for this occurrence.

CONSTRUCTION RESIDUE

A by-product of cutting with a saw is residue-filled water or concrete dust. Residue filled water or re-hydrated dust can cling to the surface and leave a concrete stain. It is recommended to wash and remove the water or concrete dust from the surface of the pavers before it dries. Construction residue can also happen through soil disturbance or environmental elements. These contaminants should be removed immediately but do not affect the integrity of the product or your installation. Techo-Bloc accepts no responsibility or liability for these occurrences.

PROPER COLOR DISTRIBUTION AND LAYING TECHNIQUES

Proper installation enhances the overall color of pavement. Units should be randomly picked from at least two pallets when installing. This creates an attractive and subtle blending of color.

COMPACTOR AND SNOW REMOVAL EQUIPMENT

Pavers with an embossed surface (high and low points) are more susceptible to scuff marks from vibratory plate compactors used in most concrete paver installations. Techo-Bloc recommends the use of a urethane mat between the plate and the paver surface during compacting. Contact your equipment supplier for more information about accessories for this purpose. Also, snow removal equipment should have the proper spacing, bumpers, and rubber blade guards to protect the surface of the pavers. Techo-Bloc is not responsible for damage caused by the misuse of compaction or snow removal equipment, which may leave scuff marks, or burns on pavers.

NOTE:

For industry information about efflorescence, polymeric haze or information pertaining to installation specifications, please visit www.icpi.org or www.ncma.org.

LIMITED WARRANTY

The warranty applies to concrete landscaping and masonry products (herein referred to as “products”) intended for residential use and manufactured by the Techo-Bloc group.

All Techo-Bloc products comply with applicable standards established by the American Society for Testing and Materials (ASTM) and the Canadian Standards Association (CSA).

Techo-Bloc offers a transferable life-time warranty on its products, commencing on the date of delivery. The warranty covers the structural integrity of the products and any abnormal deterioration of its surfaces that may be caused by the use of rock salt (sodium chloride [NaCl]) for de-icing pavers, slabs or steps, with the exception of Stonedge collection products, unless otherwise stated.

THE FOLLOWING CONDITIONS OR EVENTS ARE NOT COVERED BY THE WARRANTY:

1. Use of rock salt and transferability of warranty on Stonedge collection products (<<wet cast products>>) unless otherwise stated.
2. Splitting, chipping or other breakage caused by impact, abrasion or overloading.
3. Damage or loss caused by the movement or settling of the underlying structure or base components upon which the products are set.
4. Damage or loss caused by design or installation not in compliance with local codes, industry standards or the guidelines provided by the Interlocking Concrete Pavement Institute (ICPI), the National Concrete Masonry Association (NCMA) or Techo-Bloc.
5. Damage or loss caused by natural disaster, including but not limited to, earthquakes, floods or other similar events.
6. Acts of negligence or misuse by the owner, installer or any third party.
7. Color matching to printed representations.
8. Efflorescence, polymeric haze or construction-born residue. (See the important information section for terminologies)
9. Damage or loss caused by the operation of compaction or snow removal equipment.
10. Normal wear and tear and normal behavior, such as variation in colors or shades.

In the event of product failure within the scope of this warranty, Techo-Bloc will replace the affected units only, following a site inspection and assessment of the products by Techo-Bloc or its representatives. Techo-Bloc’s responsibility is limited to the cost of the product only and not to the costs related to the installation or replacement of said products. Techo-Bloc will honor this warranty only with a proof of purchase, such as an invoice or delivery slip.

“We only craft products we would want in our own backyards”

ULTRA
SAND

The final touch
of customization
for your project

- Locks paving units in place
- Helps prevent weeds and insects
- Backed by a 15-year warranty

Available colors

Sandy Beige

Graphite Grey

Ivory

Onyx Black

Institutional, Commercial & Industrial

Where design meets durability

With over 35 international patents, we aim to strike the perfect balance of natural hues and incredibly-authentic textures across a diverse range of scale. We then apply 30 years of manufacturing know-how to deliver best-in-class precision and quality backed by a warranty like no other.

Discover the widest selection of commercial grade pavements, permeable pavements and retaining walls – engineered to bring your design to life, even in the harshest environments.
