

We are MacKillop

BELONGING

We have a sense of **community** at MacKillop. Everyone belongs here, and we **support one another** on our journey. We are a community and we move through challenges **together**.

FRIENDSHIPS

Friendships **help** us all to make it through these years together, and get us **through the hard times**. At MacKillop we strive for strong relationships with **true friends**, who will **have our back** through school.

RESPECT

We **respect others** in what they do and say, whether they are peers or teachers, and **whether we agree or disagree** with them. Everyone has a **valid opinion** at MacKillop.

SAFETY

A safe and **secure environment** allows us to thrive at MacKillop. We **create safe spaces** within year groups, and our older students **lead by example**. We **report issues** to those in authority, so we can all feel safe.

GROWTH

As an inclusive school community, we encourage each other to **be our best version**, and to **challenge ourselves** in order to grow. We are all **on a journey** of growth, and we support each other **wherever we may be** along the way.
