

Summer of STEM

Summer of STEM is a multi-day holiday program that provides teenagers who have an interest in Science, Technology, Engineering, and Maths (STEM) with an opportunity to engage in a variety of interactive workshops at our Joondalup or Bunbury campuses.

Joondalup program

21-23 January 2026

Explore our SuperLabs, investigate what lives in our campus lake, and compete in a chemistry clocks competition over three days at our Joondalup campus.

You'll meet other teenagers interested in the sciences and celebrate with your family during a certificate ceremony at the end of the program.

- Time: 9.30am-3.30pm daily
- Age: 14+ years
- Cost: \$190pp

Scan QR code for information or to book.

**Creative thinkers
made here.**

Bunbury program

28-29 January 2026

Explore our science labs, investigate what mammals live on and near our campus, and grow bacteria over two days at our South West campus.

You'll meet other teenagers interested in the sciences and celebrate with your family during a certificate ceremony at the end of the program.

- Time: 9.30am-3.30pm daily
- Age: 14+ years
- Cost: \$130pp
