Bluedrop Water, Inc. launches purified drinking water refill station in Quincy, MA, several other locations in Quincy slated for 2013.

Randolph, MA January 23, 2013: Bluedrop Water, Inc. announced today the installation and opening of its Model 7500 pure drinking water refill station in the city of Quincy, MA.

Additionally the company announced it will present its bottle-less office water purification cooler at the Quincy Chamber of Commerce Annual Meeting and Business Expo, Thursday January 31st at the Boston Marriott Quincy. For more information and tickets visit www.TheQuincyChamber.com.

The Bluedrop model 7500 water refill station provides pure, fresh, great tasting drinking water conveniently, inexpensively and without the waste associated with disposable plastic bottles. The unit will dispense 16 and 24 ounce chilled single serve refills for \$.45 and \$.50, 1 and 5 gallon selections of pure ambient water refills for \$.25 and \$1.25 respectively. 24 oz steel canteens can also be purchased from the kiosk for \$5.00. Bluedrops purification process utilizes state of the art purification processes; Carbon filtration, Sediment filtration, Reverse Osmosis (RO), Carbon Block Polishing and Ultra-Violet Light (UV) to provide high quality, pure drinking water at a fraction of the cost of bottled water.

The first refill station installation in Quincy is located at 236 Washington St. in partnership with the Wash N' Dry Laundromat, and offers a healthy, affordable, convenient and ecologically sustainable alternative for consumers of bottled water looking to reduce costs and waste.

Approximately 60 Million plastic water bottles are discarded each day in the United States. Bluedrops refill stations offer the consumer a sustainable alternative to bottled water while helping reduce this growing problem and allowing individuals an opportunity to help lower their carbon footprint.

Bluedrop Water, Inc. designs, manufactures and markets an extensive line of sustainable purified water and ice vending machines, and bottle-less drinking water solutions for commercial, office and home applications.
