

# SIP Trunking Services

## Reduce Cost with Unified Voice and Data

### The DataTel 360 SIP Trunking Advantage

- ✓ Eliminate Expensive Wireline T-1 and PRI Trunks
- ✓ Leverage Existing Bandwidth Costs and Maximize Savings
- ✓ Predictable Budgeting with Unlimited Flat Rate Trunks

### Unlimited Local and Long Distance Calling

With SIP Trunking from DataTel 360 you'll have access to Unlimited Calling anywhere in the Continental US and Canada. Stop paying your phone provider high monthly fees for restricted local calling and eliminate your domestic long distance expenses.

### Predictable Fixed Cost Phone Service

DataTel 360 offers Flat Rate SIP Trunking solutions designed to save you money.

Budget your telecom spending every month and stop worrying about long distance and overage charges.

#### Fully Compatible

Our SIP Trunking service is compatible with all phone systems. Even if it is not SIP Enabled

#### Extremely Reliable

DataTel 360's SIP Trunking solutions are provided on a fully redundant all IP telephony network.

#### Quick and Easy

In most cases your SIP Trunks can be provisioned and setup on your existing phone system within a few short hours

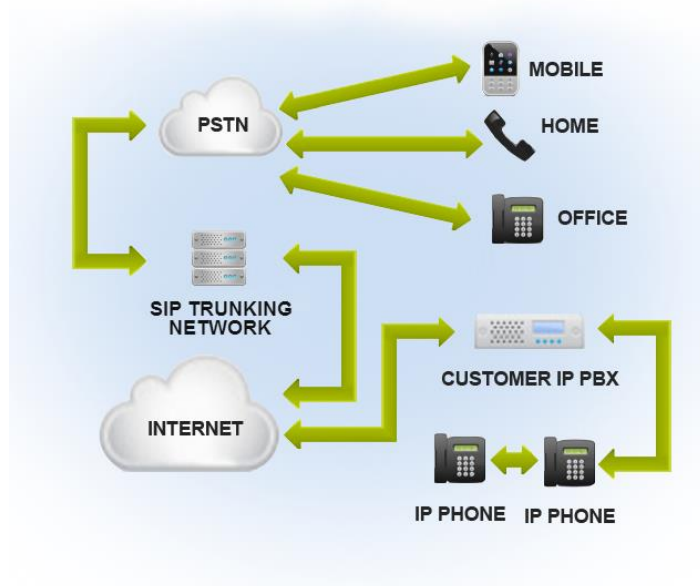

#### Disaster Proof

In the event your phone system becomes unavailable, your calls will automatically failover to any destination

## Start Saving on Your Telecom with DataTel 360

### 5 Benefits of DataTel 360 SIP Trunking

- **60% Monthly Savings** - Start benefiting from Unlimited Calling at low flat monthly rates with no overages
- **Keep Your Phone Numbers** - Keep all your existing phone numbers, Including Direct Inward Dial (DID) and Toll Free
- **Transparent Migration** - We manage your migration and ensure you have seamless transition when using our SIP Trunks
- **Easy to Deploy** - SIP Trunks can be provisioned and setup in the same day with little to no changes to your existing phone system
- **Receive VIP Support** - from our US Based staff for any account changes or questions

### The DataTel 360 SIP Trunking Advantage

DataTel 360 SIP Trunks deliver optimal service quality with crystal clear voice. When compared to older more expensive wireline services like analog trunks or PRI's, DataTel 360 SIP Trunks enhance your existing phone system while lowering your monthly telecom spending

### Use any Phone System You Want

DataTel 360 SIP Trunks work with any SIP enabled PBX. They also work with traditional analog phone or key systems using a telephone adapter or IAD (Integrated Access Device). No matter what system you currently have or plan on purchasing DataTel 360 SIP Trunks can help you save money and increase productivity
