

## SERVICE BRIEF

# Hosted Exchange: Email in the Cloud

Email is vital for your business. MTG's Hosted Email Solution delivers the best in Microsoft Exchange without the headaches!

### Cloud-Based Email Solutions

*Email is absolutely critical to your business. Our Hosted Email Solution delivers the best in Microsoft Exchange without the hardware and management requirements.*

Exchange gives your company powerful tools to vastly improve worker productivity and foster better collaboration between coworkers.

Without proper

set up, you can run into some serious problems that will cost your company thousands in wasted productivity and IT support.

Even if your Exchange server is managed by an IT firm like MTG, hardware, electricity, and monthly management are required to keep the server at your location. Hosting it on the MTG Cloud eliminates the overhead!

### Collaboration and Accessibility

*Microsoft Exchange offers business-line capabilities to improve user communication and collaboration.*

Exchange hosting will vastly increase productivity with collaboration tools, meeting schedulers, automatic archiving, and more! As always, MTG will configure your server with industry's best practices and security policies.

With Exchange your company can have public folders to share files, email templates, and any folder in your mailbox! Your employee calendars can be viewed side by side to make it easier to schedule meetings and events.

### Anywhere Access

*Take your office with you; Access your email, contacts, and your calendar from anywhere!*

With MTG's Hosted Exchange, your server is set up with the tools and security your company needs to be successful. Equip your workforce with the ability to check their email securely from their mobile device, or from any browser.

Lost phone? With mobile device policies, we can wipe the device remotely to ensure that your sensitive data doesn't fall into the wrong hands.

Contact us to learn more about MTG IT Professional's Hosted Email Solution today!
