

THE POWER OF ADVANCED IT SOLUTIONS. **MADE SIMPLE.**

IntelligiS delivers leading-edge technology solutions that help businesses achieve greater efficiencies and boost productivity while reducing overall total cost of ownership. Our experience solving technology challenges enables us to help businesses simplify their IT infrastructure and great peace of mind.

COMPREHENSIVE IT SOLUTIONS

DATA CENTER SOLUTIONS

Empower anytime, anywhere access to support today's mobile workforce. Our technical experts can design, deploy and migrate datacenter solutions. We offer:

- Desktop-as-a-Service/Virtual Desktop Infrastructure enabling access to data from any device
- Flexible datacenter options including private cloud and co-location services

CLOUD SERVICES

Benefit from scalability, faster deployment and cost-savings.

IntelligiS offers many solutions via the cloud including:

- Disaster Recovery (DRaaS)
- Office365
- Unified Communications (UCaaS)

UNIFIED COMMUNICATIONS

Boost collaboration seamlessly with IP phone solutions.

With feature-rich tools, your business can:

- Simplify communication and collaboration across multiple locations
- Allow mobile employees to maintain productivity and engage with customers faster

MANAGED IT SERVICES

Relieve your resources with turnkey IT solutions.

- **IT Support & Helpdesk** services offers proactive, consistent network monitoring with customized plans adapted to your needs
- **IT Department Companion** offers bundled hardware, software and technical resources for a fixed monthly rate, minimizing upfront technology investment costs
