HOW TO CREATE SECURE PASSWORDS

HOW TO GUIDE BY DPC TECHNOLOGY

********* **CREATE**

dpc TECHNOLOGY SUPPORT

CREATE A MASTER PASSWORD

Use Diceware Generator; this creates a password that is very random

https://www.rempe.us/diceware/#eff

USE A PASSWORD MANAGER

Use Diceware Generator to log on to the password manager, we use IPassword

CREATE UNIQUE PASSWORDS

The password manager can create unique, complex passwords for every site, every program and every log on and you don't have to remember them

INSTALL THE PASSWORD MANAGER ON ALL DEVICES

You'll never have to create new passwords that you ineveitably forget or lose.

If you're on a computer that is outside of your network, you can simply log on to the password manager portal and retrieve all passwords for each individual site
