Open Call for Candidates

Equitable Origin Standards LLC
Board of Directors

22 October 2012
Equitable Origin

Equitable Origin is an innovative stakeholder-based voluntary certification system designed to promote higher social and environmental standards, greater transparency and more accountability in oil and gas exploration and production. Together with a certificate trading and ecolabel scheme, Equitable Origin delivers a market mechanism to reduce the impact of oil and gas operations, create a market for more responsibly produced fuels and petroleum-derived products, and empowers consumers and businesses to reward energy companies that achieve certification.

Equitable Origin undertook an extensive, multi-year consultation process with local communities, Indigenous Peoples, oil and gas companies, NGOs, and government officials in the Amazon region to develop the EO100™ Standard. In the process, Equitable Origin established formal partnerships with COICA (Coordinator of Indigenous Organizations of the Amazon Basin), COFENIAE (Confederation of Indigenous Nationalities of the Ecuadorian Amazon), OPIAC (Organization of Indigenous Peoples of the Colombian Amazon) and Conservation International – Peru.

As we evolve, we are enriching our governance structure to effectively oversee the multiple activities consequent to rapid adoption of the EO100™ Standard in Latin America and elsewhere, standards development, independent assurance, transparency, value distribution and impact assessment.

We are looking for leaders in their field to join us at the Board level and contribute to meaningful and widespread change in the oil and gas industry.
