

Logging Into the Karpel Client Portal for the First Time

When logging into the Karpel Client Portal for the first time, you will have three options for new account creation:

1. Sign in with Microsoft (recommended for organizations that use Microsoft 365)
2. Sign in with Google (recommended for organizations that use Gsuite)
3. Sign up (for all other organizations or those who do not wish to use Single-Sign-On)

If you select “Sign up”, you will see the following page where you can create your own ConnectWise login:

A screenshot of the ConnectWise account creation page. The page has the following fields: First Name, Last Name, Email, Password, Confirm Password, and Country. The Email field is circled in red. There is also a checkbox for 'I'm not a robot' and a 'SIGN UP' button. At the bottom, there is a 'Privacy' link and a copyright notice for 2022 ConnectWise.

Be sure the email address you use is your work email to link it to our systems.
