Senior .NET Developer

Full Time position located at MXOtech in Chicago, IL

ROLE CAPACITY: 100% Technical, travel to client sites will needed from time to time

A fast growing, high paced Chicago based Software Development Company located in the West Loop is seeking a dynamic.Net application who will design and build MVC web applications and native mobile applications. The ideal candidate will have 3-5 years' experience developing web applications using ASP.NET MVC, JavaScript, Angular JS, and related technologies. Candidates should also have 3 years' experience developing native mobile applications using Xamarin. Design experience is preferred.

You must also be a highly organized and customer service focused individual with a positive attitude. We hire only high energetic, positive, team players that love being challenged and are always looking to grow. This person must represent our core values and deliver high-level client support as well as contribute in a big way to our team camaraderie and spirit.

Do you get great satisfaction from contributing to the overall success of the company? Do you enjoy using technology to automate processes? Do you work well under pressure and always show up with a positive attitude? Then please submit your resume, and a short summary on why you fit this description.

We are selective so we care more about finding the right person than rushing to hire just anyone. We offer an inviting work environment with health benefits, paid time off, and more.

Our unique company benefits include; great healthcare and dental plan options with BCBSIL, Simple IRA and 401k retirement planning opportunities, tax-saving commuter benefits, Divvy bike passes, cutting-edge training opportunities, company lunches and breakfasts, team awards, special company events and celebrations, all in all a modern, cozy, on the edge of the loop type of work environment!

Primary Duties and Responsibilities:

- General .NET development – ASP.NET MVC, C#,
- Native mobile application development – Xamarin
- Lead and participate in solution design sessions
- Assist project managers in breaking down requirements into a project plan
- Attend and facilitate code review sessions
- Follow test-driven-development and OOP standards

- Build unit tests
- Review results from CI/CD framework
- Be an active participant on our Scrum team

Additional Duties and Responsibilities:

- Ability to work in a team and communicate effectively
- Ability to mentor newer members of the team
- Measure and maintain high levels of customer satisfaction
- Create and maintain the best practice standards in application development and secure coding
- Create and review existing internal processes and procedures related to service delivery
- Understand Agile project management
- Review application development trends and online materials to remain up-to-date with current and future technologies emerging in the industry
- Improve customer service, value, and satisfaction

Knowledge, Skills, and/or Abilities Required: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Preferred professional developer certifications such as Microsoft Certified Solutions Developer
- Microsoft .NET Framework, C#, ASP.NET MVC
- JavaScript (jQuery, Angular JS)
- HTML 5/CSS3
- Xamarin development
- Strong SQL experience (MS SQL, My SQL)
- Entity Framework
- Unit testing and CI/CD framework experience (MS Test and Jenkins)
- Web service integration and development (Web API, WCF)
- Strong understanding of OOP and TDD principles
- Experience and comfort working on an Agile (Scrum) project team
- Minimum 3 years of experience in a similar role

- Interpersonal skills: such as communication skills, active listening, and customer-care
- Diagnosis skills of technical issues
- Experience in a consulting role
- Ability to multi-task and adapt to changes quickly
- Self-motivated with the ability to work in a fast-moving environment

The candidates must possess excellent customer service, project planning, problem solving, goal setting, quality and time management. Undergraduate degree from a four-year college preferred.

Personal Characteristics:

The candidate must follow instructions well, but also be able to take the initiative. Must have excellent customer service skills and manage time well working with multiple clients at the same time. Should be able to multi-task, prioritize and meet tight deadlines. Should be fair, flexible, get along well with others, and be a good listener. Must be punctual, reliable, and take good notes. Previous consulting experience is desired.
