- Develop mobile applications utilizing standard coding practices
  - Follow industry standard software development architecture
  - Code should be easy to maintain and understand
- Develop unit tests that can be utilized effectively in a Continuous Integration pipelines
- Collaborate with teammates in the project lifecycle
- Participate in sprint planning by sizing stories and breaking down stories into tasks for the current sprint
- Communicate well with team members and clients
- Continuously learn and grow as a mobile developer
- Value and adhere to MXOtech's core values

Qualifications:

- 3 Years' professional experience as a mobile application developer
- 1 Years' experience developing with Google Flutter
- Ability to drive mobile development following mobile dev best practices
- Experience with relational databases
- Experience with APIs
- Passion for working with a team
- BS in Computer Science, training program/certification as a mobile developer, or equivalent experience

Skills:

- Must be a skilled problem solver
- Must be highly organized and punctual
- Excellent customer services skills
- Must have a consulting mindset
- Strong and effective verbal and written communication skills

- Must have a sense of urgency
- Detailed Oriented

Physical demands:

- Ability to periodically stand or walk

Perks:

- We offer healthcare (Aetna), dental, and vision benefits DAY NUMBER ONE of employment. No need to wait for benefits to kick in! We have a great 401K with a company match, career path training, employee outings, lunches, events, awards, transparency with monthly company meetings. MXO covers 100% for the employee level on HDHP 5000 Plus plan, long term disability, and an Employee Assistance Program (EAP) as well as a wellness program through Aetna (Attain).
- A wonderful co-ed leadership team who cares about their staff, great co-workers, and we are in the process of building out a brand new office near the West Loop with a modern tech feel, gym, meditation space, IT lab, training room, and much more.
