FOR IMMEDIATE RELEASE:

XPERTECHS Named to the MSPmentor 501 Global Edition

Seventh Annual Report Identifies World's Top 501 Managed Service Providers (MSPs)

Ellicott City, Maryland – March 19, 2014 – XPERTECHS has surfaced on Nine Lives Media's seventh-annual MSPmentor 501 Global Edition (<http://www.mspmentor.net/top501>), a distinguished list and report identifying the world's top 501 managed service providers (MSPs).

"XPERTECHS is honored to be included in this prestigious group. We are proud of the hard work and growth that our business has experienced over the last year, and have plans in place to build upon that growth exponentially in the near future." said Michael Mellott, President at XPERTECHS.

The MSPmentor 501 report is based on data from MSPmentor's global online survey, conducted October-December 2013. The MSPmentor 501 report recognizes top managed service providers based on a range of metrics, including annual managed services revenue growth, revenue per employee, managed services offered and customer devices managed.

"MSPmentor congratulates XPERTECHS on this unique honor," said Amy Katz, president of Nine Lives Media, a Penton business. "Qualifying for our MSPmentor 501 Global Edition puts XPERTECHS in rare company."

MSPs on this year's global 501 list lifted their combined annual recurring revenues \$2.61 billion, continuing seven straight years of strong growth. Together, those MSPs now manage more than 700,000 servers, according to Jessica Davis, managing editor, MSPmentor.

MSPmentor, produced by Nine Lives Media, is the ultimate guide to managed services. MSPmentor features the industry's top-ranked blog, research, Channel Expert Hour Webcasts and FastChat videos. It is the number one online media destination for managed service providers in the world.
