FOR IMMEDIATE RELEASE:

XPORTECHS Implements Newforma Project Information Management Solution

Ellicott City, Maryland – March 6, 2015 – XPORTECHS has announced that they are now introducing Newforma’s project information management software to their architecture, engineering and construction (AEC) customers and prospects.

Newforma is a project information management (PIM) software company focused on making architects, engineers, construction professionals and owners more productive and successful.

The Newforma PIM solutions helps AEC organizations manage and share project information, drive accountability, raise transparency and streamline project delivery processes, including those surrounding building information modeling (BIM), integrated project delivery (IPD), contract management and more.

XPORTECHS provides IT services to numerous AEC organizations, across the country. “Newforma will allow us to provide our architectural and engineering customers with a project management software that will keep all of their files, documents and timelines in one central location,” said Michael Mellott, President at XPORTECHS. “Newforma will help our customers save time managing project information by streamlining their process, and improve the service they provide to their own clients.”

About XPORTECHS

XPORTECHS is a leading Information Technology company offering a full range of services including Microsoft network solutions, LAN and WAN connectivity, Proactive IT Managed Services (XperCARE), Cloud Solutions (CLOUD EXPERIENCE), Network Security, and Training. Our focus is on delivering high quality Networking, Proactive Management, IP Telephony and Internet Solutions that are critical to solving information needs of our clients. Our philosophy is built on the desire to focus on our select group of clients and deliver the best customer service available through our certified engineers.
