FOR IMMEDIATE RELEASE:

XPERTECHS Named One of the Top-Performing SMB Channel Partners in the U.S. for a Second Straight Year

Ellicott City, Maryland – Oct. 29, 2013 – MIT Group, dba XPERTECHS, today announced it has been named to the 2013 SMB 500. The list was revealed at the 2013 Fall SMB Invitational and celebrates the top 500 fastest-growing U.S. channel partners focused on small and midsize businesses (SMBs). Ranked at number 37, XPERTECHS grew its business by more than 610 percent.

The 2013 SMB 500 list was derived from the more than 20,000 U.S. solution providers and MSPs who work with the U.S. SMB Business Unit. This year's top performers posted growth of nearly 250 percent. Developed in collaboration with Ingram Micro's Business Intelligence Center and U.S. SMB Business Unit, as well as channel research services firm The 2112 Group, the list also takes into account select criteria such as company size, overall technology category revenue growth and innovation with SMB business engagements.

"We are extremely honored and pleased to have made the SMB 500 list for a second consecutive year," said Michael Mellott, President of XPERTECHS. "Being recognized on this list, again, demonstrates XPERTECHS' continued success and growth throughout the Baltimore/Washington Corridor, and in the managed services industry."

"Having the right technology solutions and services in play can bring significant advantages to small and midsize businesses, and can be the difference between good and great companies," says Jamie Ferullo, director of SMB sales, Ingram Micro U.S. "Our SMB 500 list represents the 'who's who' in SMB when it comes to top-performing VARs and MSPs. We're thrilled to announce this year's winners and congratulate XPERTECHS on its growth and success."

About XPERTECHS

XPERTECHS is a leading Information Technology company offering a full range of services including Microsoft network solutions, LAN and WAN connectivity, Proactive IT Managed Services (XperCARE), Cloud Solutions (CLOUD EXPERIENCE), Network Security, and Training.
