FOR IMMEDIATE RELEASE:

W.A. Chester Rejoins XPERTECHS For World-Class IT Support

ELLICOTT CITY, MD – January 26, 2017 – XPERTECHS is pleased to announce that former customer W.A. Chester, LLC is now the newest addition to the XperCARE roster. XPERTECHS will be fulfilling all of W.A. Chester's IT needs through the Managed Services solution.

Established in the 1930's, W.A. Chester is the industry-leading electrical contractor for installation, maintenance and repair of underground high voltage cable transmission and distribution systems. Their clients are the nation's electric utility companies and independent power producers. On March 23, 2016, W.A. Chester became an Exelon company through the merger of PEPCO Holdings, Inc. and Exelon Corporation.

W.A. Chester was in need of professional IT assistance after losing a portion of their data backup files. Knowing how critical the issue was, W.A. Chester turned to XPERTECHS for consulting and assistance to recover these files. Since then, XPERTECHS has implemented a new Proactive IT support system through its Managed Services package. Now that the system is fully implemented, XPERTECHS will be able to monitor W.A. Chester's network remotely, 24/7, and provide key IT functions such as: help desk, problem remediation, remote backup, patch management, anti-virus/spyware protection, Internet security, and content filtering.

"XPERTECHS is looking forward to renewing our relationship with W.A. Chester and providing them with world-class IT services and support. We feel will be able to use our expertise to help W.A. Chester excel their business through the use of cutting-edge technology and best practices" said Michael Mellott, President of XPERTECHS.

About XPERTECHS

XPERTECHS is a Microsoft Gold Partner offering a full range of services including Microsoft network solutions, LAN and WAN connectivity, Proactive IT Managed Services (XperCARE), Cloud Solutions (CLOUD EXPERIENCE), Office 365 Implementations, and Network Security.
