

CUSTOMER SUCCESS STORIES

What people are saying about ScanForce

ScanForce has been, in my opinion, the single best purchase our business has ever made to improve efficiency and accuracy with inventory in our business. It is easy to use and problems have been virtually non-existent. If I ever do have a question or need help with a problem, their response time is not hours or days, it is minutes. Their customer service is second to none!

Our ScanForce scanners simplify the entire process and save time for all departments in our company, from our Distribution Center to our Stores and then our Business Office. The fact you can scan and be connected right into Sage is a huge benefit. ScanForce helps connect our stores to our distribution center's inventory so we can monitor which products are selling quickly and should be restocked soon. The customer service given from the ScanForce Tech Team is amazing! We are truly impressed how knowledgeable, polite and helpful they are on every phone call!

I can't imagine what our business would be like now without the scanners. It definitely has been a great benefit to us in **helping service our customers in a timely matter as we work in a very fast paced environment.**

ScanForce saved us thousands of dollars when we integrated ScanForce's software with our warehouse order fulfillment and ERP systems. It has saved time and money by eliminating erroneous items for our customers and invoicing. The help desk is always courteous, responsive and knowledgeable. We couldn't have met the demand for 15% increase in sales last year without ScanForce.

Why ScanForce?

ScanForce is the leading bar code scanning and mobile Warehouse & Sales Automation Solution for Sage 100. For over 15 years, ScanForce has been focused on helping Sage 100 clients manage their warehouse and business operations more effectively through the use of bar codes and mobile devices. ScanForce is the only Sage Certified Solution for your warehouse and sales automation needs.
