

MMG Education

Benchmarking Factsheet

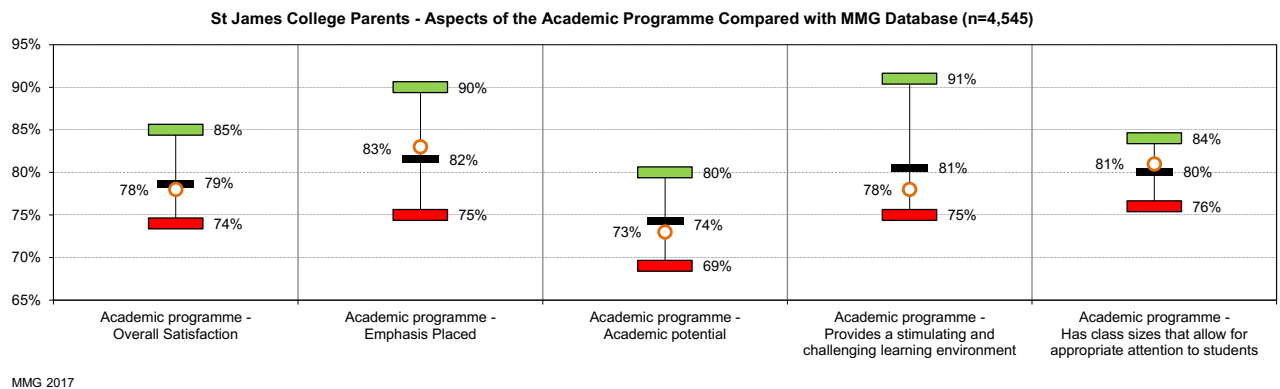

A core component of MMG Education's research is the establishment of the largest known benchmark database on school performance areas and our ability to interpret and share this with schools for their continual improvement strategies.

MMG Education provides detailed benchmarking reports across 120 areas of operation.

The chart below provides an example of benchmarking 'Overall Satisfaction' for St James College*.

The chart below provides another example of benchmarking elements of the school's 'Academic Program'.

*St James College is a fictional school used by MMG Education to show examples of services.
