

ZENOPS

ADD-ON SERVICES

At ZENOPS we realize that each-and-every one of our clients has their own unique business needs. We pride ourselves on identifying and providing flexible and innovative solutions to help you maintain a balanced and secure infrastructure regardless of your business size, location, or how or where you work.

We believe that In today's business world SMB and home-based workers, deserve the ability to choose the custom services they need.

ZENOPS is proud to introduce our Add-On Services which have typically only been available for enterprise or large corporations in the past, all at small business friendly pricing.

Managed O365

Managed Backup or Full Image Backup

Managed Patches + Updates + Anti-Virus

This **ZENOPS** solution provides you with complete piece of mind for your most essential business tools. Managed O365 includes basic on-going support, consulting, and backup.

ZENOPS will backup email accounts, OneDrive, and configuration data. Office and Microsoft 365 licensing sold separately based on your business needs and your desired subscription level.

Finally the freedom to choose the services that's best for your individual needs. We provide you with the reassurance that your data is always backed-up and recoverable.

Managed Backup: Daily File Backup, Up to 500 GB of data with 30 Day Retention.

Managed Full Image Backup: Daily "Full Image Snapshot" Backup, Up to 500GB of data with 30 Day Retention.

Protect yourself from ever-increasing daily threats, poor system performance, and the costly repairs associated with a hacked, damaged, or corrupted workstation.

Our **Managed Workstation PC or Mac** solution provides Anti-Virus and Anti-Malware Licensing and Automated Daily Scans, Updates, Patching, and Health Monitoring, Warranty and Configuration Documentation.
