## Health Insurance Benefits/Coverage/Authorizations DISCLAIMER

As a courtesy, Santa Barbara Surgery Center will attempt to verify your health insurance benefits and/or necessary authorizations for you. Please be aware, this is only "A **QUOTE** of Benefits/Authorizations." **We cannot guarantee payment or verify that definite eligibility of benefits conveyed to us or to you by your carrier will be accurate or complete. Payment of benefits are subject to all terms, conditions, and exclusions of the member's contract at the time of service.**

Your health insurance company will only pay for services that it determines to be "reasonable and necessary." Our office will make every effort to bill your insurance in a timely manner. If your carrier determines that a particular service is not reasonable and necessary, or that a particular service is not covered under the plan, your insurer will deny payment for that service and it will become your responsibility.

We recommend you to be familiar with and verify your benefits with your insurance company prior to your services at Santa Barbara Surgery Center. Please be aware, that even then, it is still not a guarantee of benefits or payment.
