IT PROVIDER CHECKLIST »

THESE ARE NEW PROVIDER MUST HAVES

☐ They have a major focus on security, and can outline that plan for your business.

☐ They offer plans that are fit to your business and what you hope to accomplish.

☐ Business continuity and disaster recovery are core features they offer in their plans.

☐ They can be your all in one service provider, including for services like VoIP.

☐ They offer simplified billing so you don't have to dread the bill they send you every month.

☐ They have 24/7 help desk that can be reached in the event of an emergency.

☐ They are proponents of proactive support for your business devices.

☐ They offer cyber security training for your employees to prevent cyber threats.

☐ They can make you their priority, so you're not waiting days or weeks for a response from them.
