## 129<sup>th</sup> Graduation

### Graduation Speech by Ms. Su Pyae Sone

Mr. President, Your excellencies, honourable guests, distinguished faculty, family members and fellow graduates: Good morning to you all !

I am greatly honoured to deliver the graduation speech on behalf of graduating Masters students in this very special moment.

We have started this journey at different times. But today, we have become AIT graduates with a lot of knowledge and experiences. When we arrived at AIT for the first time, we were not familiar with the teaching concepts and exam system here. Because of that, we had difficulties in studying. We met lots of friends who looked different and who talked differently, which made it difficult to understand them sometimes. However, we overcame our difficulties and problems by helping each other, and working together with continuous guidance from our advisors.

I remember that one night before a midterm exam. I was very tired of studying the subject that I could not understand. One of my friends came and asked, "Are you ok?". And I said, "I tried harder than before since I was here, and I think this is my limit." What he then said was, "Keep trying harder to break the limit, and go further till you find another, to break it again." Those words were simple, but I got a lot of courage to continue my studies from that advice. What I understand while studying in AIT is, when you focus on yourself trying to fit in the current situation and compete with yourself to be better day by day, you can achieve the goals that you have never imagined before.

On behalf of all of you, I would thus like to thank AIT for providing us a peaceful and advanced academic environment in terms of Lab facilities, Library and study rooms, which boost our academic performance. Aside from that, the green campus, which gives a strong sense of unity and friendship, makes it difficult for students to say goodbye. AIT proved to be an excellent place for creating harmony and coherence among different cultures and nations.

If the graduation is expressed as a famous example, graduation marks the end of another chapter in our own book of life. With this chapter closed, I am certain that many of us are already excited and anxious about starting the next one. Luckily, as AIT graduates, we have been given all the paper and ink we need, and already learnt how to write our own interesting stories. All we need to do, is just to keep writing down the next chapter. And I believe, that by using the knowledge gained from AIT, we not only can make positive contributions in our own life but can also make good changes in our society and help in the development of our own countries.

In conclusion, I would like to sincerely thank our kind and supportive advisors and AIT faculty members, for their efforts in helping us turn our dreams into a reality. Gratitude

# AIT

also goes to our parents, and family members, who believed in us and supported till the end. Our sincere thanks to all our donors for their very important financial support.

A big Thank you to all.

Lastly, I would like to say congratulations to all graduates and wish everyone to get the best career opportunities in your life ahead. Hope we can shine together as a pride for AIT.

Thank you very much!
