ENTREPRENEURSHIP CENTER

In the Entrepreneurship Center, we support our students’ entrepreneurial thinking and action in student groups and projects. The students are exposed to the start-up and management of new innovative business ventures. The Center aims to enhance the student’s capability to develop new business ideas on knowledge bases via startups. An entrepreneurial mindset is fostered.

OUTREACH OPPORTUNITIES

Apart from academic fields of study, AIT offers a variety of outreach opportunities supported by the Asian Institute of Technology, and are designed to enhance and extend the educational experience. Students from AIT can take courses at the University of Technology, Sydney, and more...
STUDY OPTIONS AT AIT

Flexible Degree Options

The "Flexible Degree Option" is a new alternative to the usual coursework and thesis model. The aim is to enable students to work in areas of interest, gain practical experience, and complete an online thesis. This option allows students to take up to two courses per semester. This is ideal for someone who does not want to take too much time away from their work or personal life. AIT. Students can do many courses online via AIT's Hybrid Modes of Instruction. These programs provide human resource capacity development for non-PhD faculty and staff of other organizations, enable students to work towards a master's degree while working professionals. Graduates have benefited immeasurably from their AIT education.

Unified Programs

UNIFIED PROGRAMS include BEng, MBA, and MSc in various fields. These programs enable students to focus on a specific area of interest while gaining knowledge and skills that will be valuable in their future careers. The programs provide a comprehensive education that prepares students for professional success and leadership roles.

Capacity-Building PhD Programs

These programs are designed for PhD students from countries that are members of the World Bank. Students have the opportunity to study at a world-class institution, and contribute to the knowledge and development of their countries. The programs provide a unique opportunity to work with leading experts in various fields and contribute to the development of their countries.

About AIT

The Asian Institute of Technology (AIT) is an international graduate research institute, providing engineering, management, and technology education to professionals from developing nations.
