Application Process

Every student has to be officially nominated by the International Office of his/her home institution via e-mail to international@hof-university.de

Exchange students need to apply through an online application system (see link below). Please note that our office cannot process the application without the required enclosures and signatures.

Application Requirements

- Current academic transcript of records in English language (PDF)
- Passport photo in high resolution (JPG)
- Copy of passport or ID Card (for EU citizens) (PDF)
- Proof of health insurance (PDF)
- *Letter of motivation (only double degree applicants)*
- *Short portfolio (only Textile Design applicants)*

Admission letters will be sent approximately one week after the application deadline.

Administrative fee

A contribution to the student services amounting approximately **EUR 100** is due per semester. The amount is subject to change.

Online Application Link

For summer semester 2021, the application link will be active in September and October 2020.

[Application form English](#)

Application deadline

Winter semester: **May 31**

Summer semester: **October 31**

Further Information

Meet and Greet Service

During the arrival days, we offer pick up service from the main train station Hof. Our student assistants will bring you directly to your accommodation.

Visa Requirements

Please enquire at your local German embassy about visa requirements applicable.

Medical Insurance / Health Service

The German government and the European Union have made it mandatory for all foreign students to have a health insurance for the entire duration of their studies.

Students from **EU partners** must present the European Health Insurance Card. It is essential that the Insurance Card is valid for the entire study period.

Students from **Non-EU partners** need to take out a health insurance, which covers the entire study period.

In case a sufficient health insurance from the home country is available, we need a confirmation (in English or German) from the insurance company about the insurance status. Please note that translations need to be certified!

In case the existing health insurance is not covering the study abroad, an additional insurance must be taken out. Please compare several companies, decide independently, and let us have a confirmation letter.

Housing Options and Costs

Please note: Rental contracts are always for a period of 6 or 12 months!

Winter Semester: September 1st to February 28th

Summer Semester: March 1st to August 31st

Exchange students from our partner institutions may

- either live in one of our dormitories in a single room with a private bathroom
- or in a shared furnished flat in a single or a double room.

Accommodation costs: approx. 250 - 400 €/per month including energy and internet

How to apply for a room: After you have been nominated by your International Office, you will start your online application via our online portal MoveOn. In this portal, you will choose your favorite accommodation. Our Housing Office can help you to find an apartment only **after you have been admitted officially to Hof University!**

In general, students should have approx. 860 € per month at their disposal for their cost of living.

Orientation Week

For all international students we offer a two-week Orientation Period before the start of each semester. During this period, the students will not only meet the other international students and get to know the university. We will also help with all administrative issues needed for studying in Hof (e.g. city registration, residence permit, enrolment, timetable, and so on). Moreover, there will be an Intensive German language course. This period will guarantee a relaxed start before the actual lectures begin.

Language Requirements

For lectures held in **English**: at least B2 according to the Common European Framework of Reference for Languages.

For lectures held in **German**: at least B2 according to the Common European Framework of Reference for Languages.

Subject choice

Exchange students (**undergraduate**) can choose their subjects from any of the Bachelor courses offered.

Exchange students (**postgraduate**) can choose their subjects from any of the Bachelor and Master courses offered. However, all exchange students must fulfill the requirements set by their home institution.

Workload

According to the guidelines of the European commission, 60 credits represent the workload of a year of study, 30 credits are given for a semester.

Credits are awarded only when the subject has been completed and all required examinations have been successfully taken.

Exchange students can take as many subjects as they wish but it is advisable to take no more than 30 – 35 credits.
