

Referred = Secured

Help keep businesses you care about safe.

In just one easy step, you can refer an organization to enroll in one of PCPC's advanced cybersecurity protection plans.

Peace of mind for them. Cash in hand for you.

How it works:

Share the name, title and contact information for a qualified potential client either through our secure form online, or by emailing us at **referrals@pcpc.tech**.

When your referral signs up for one of our advanced cybersecurity plans for 20 or more workstations, we'll cut a check for **\$250** to you, or to your favorite charity.
