Making **Technology** Work For You

CELERA HOSTED EXCHANGE

Celera Hosted Exchange: Email in the Cloud

Reliable & scalable email solutions that deliver enterprise-class capabilities without the hardware and management overhead.

Cloud-Based Email Solutions

Email is absolutely critical to your business. Our Hosted Email Solution delivers the best in Microsoft Exchange without the hardware and management requirements.

Exchange mail can give your company many powerful tools. Putting them into action can vastly improve worker productivity and allow foster more efficient collaboration between employees.

However, without proper set up, you can run into serious issues with setup, migration and support. These issues can cost your business thousands of dollars or more in wasted productivity and IT support.

Even if your Exchange server is managed proactively by an IT firm now – hardware, electricity, and monthly management are all required to keep that server up and running. Hosting it on the Celera Networks Cloud eliminates all of that overhead, saving you money over the long term.

Collaboration and Accessibility

Microsoft Exchange offers enterprise capabilities to organize and streamline communication and collaboration

Enable your users to collaborate with Microsoft Outlook and store unlimited amounts of mail with

no additional cost. Exchange hosting can vastly increase your productivity with collaboration tools, meeting scheduling and much more. Best of all, your hosted Exchange server will be configured to the industry's best practices and security policies and provide enterprise-class redundancy.

Exchange allows your company to have public folders that can be used to share files, email templates and more. You can even share any folder in your mailbox. With Exchange, your employee calendars can be viewed side by side to make it easier to schedule meetings and events.

Anywhere Access

Need access to email, contacts, and your calendar from anywhere? Exchange has you covered.

With Celera Networks Hosted Exchange, you can rest assured that your server is set up with the tools necessary and the security your business needs to be successful. Exchange provides your workforce with the ability to check their email securely from their mobile device (IOS, Android or Blackberry), or from any browser using the Webmail portal.

Sync your mailbox to your device and take your office with you. If you lose your phone, don't worry. With mobile device policies, we can wipe the device remotely to ensure that your sensitive data doesn't fall into the wrong hands.
