

EXECUTIVE FUNCTIONING CLINIC

CCSN is excited to announce the opening of our executive functioning clinic. This clinic provides services to children, adolescents, and young adults with executive functioning deficits, ADHD, and disruptive behavior disorders and their families.

Our Service:

- ✓ Individual Coaching
- ✓ Small Group Coaching
- ✓ Parenting Training
- ✓ Academic Tutoring

Why Choose Us:

The EF Clinic builds upon CCSN's longstanding commitment to utilizing evidence-based science to guide all aspects of clinical practice. In the EF clinic, clinicians develop highly individualized treatment plans using an individual and family systems-centered approach. The goal of the clinic is to support the client in overcoming organization, motivation, and self-regulation challenges and achieving meaningful life outcomes.

This outpatient clinic focuses on clients who present challenges in the areas of: distractibility, impulsivity, overactivity, risk-taking, difficulties at school or with family and peers, inattention, frustration, aggression and difficulty following rules.
