- Proactive management with established SLAs
- Access to highly skilled technical resources
- Flexible offerings to fully support your business needs

YOU ENVISION AND STRATEGIZE. WE IMPLEMENT AND MANAGE. JUST IMAGINE WHAT YOU'LL ACCOMPLISH.

CIMA SOLUTIONS GROUP

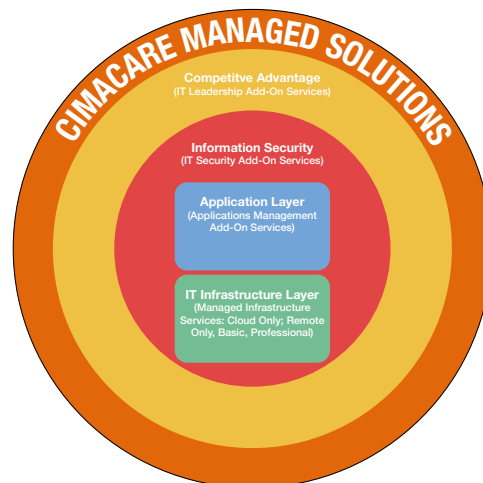

MANAGED SERVICE SOLUTIONS

CIMACARE MANAGED SERVICES PROVIDE SIMPLE, COST-EFFECTIVE SOLUTIONS FOR COMPLEX TECHNOLOGY AT THE FLIP OF A SWITCH.

Today's business owners are often distracted from focusing on strategic business outcomes due to shrinking budgets, rising costs, worries about vulnerability, and attracting and retaining skilled IT resources. Running a profitable business is complex enough without having to deal directly with the supporting technology. And because there is no "one-size-fits-all" solution, you need an experienced partner who can adopt your vision and accommodate the unique (and often quirky) needs of your particular business.

To help combat this, Cima Solutions Group offers a cost-effective, flexible solution to deliver reliable IT services to small businesses. We call it CimaCare Managed Services.

CimaCare Managed Services helps small businesses achieve their goals by enabling them to focus on what's actually important to their business as we handle their IT infrastructure for them.

Why Cima

EXPERIENCED TECHNICAL STAFF

Cima Solutions Group has deep technical expertise with both on-premise infrastructures and cloud solutions. Our team understands the varied challenges small business face and brings our expertise of the entire IT infrastructure to help them accomplish their goals.

CONSULTATIVE APPROACH

Our approach to all IT solutions is consultative. We listen. We listen a lot. While we have top technology partners and get you just about anything you want, we're focused on understanding your unique situation, your challenges, your goals, your people and your vision.

DEDICATED SUPPORT

CimaCare Managed Services is built upon Cima's track record of stellar customer support since 2005. Your business receives 24/7 proactive monitoring and management along with a dedicated account manager and established SLAs.
