PROGRAMMING NEEDS

Local Educational Day Trips

SeaKeepers is seeking vessels to participate in educational day trips in SoFla. These trips bring community members and scientists together to further ocean conservation.

[Check Out Past Expeditions](#)

Coral Reef Research, Dominica

SeaKeepers is looking for a vessel to act as a home base in Dominica for a research project analyzing CO2-seeping vents in order to improve coral reef management.

SPONSORSHIP OPPORTUNITIES

Continued program growth depends on the support of generous donors who believe in SeaKeepers' efforts to bring together the yachting community and scientists to raise awareness, protect and restore our oceans. SeaKeepers is offering unique sponsorship and naming opportunities to directly support 2016 programming.
