

LET'S TAKE THE NEXT STEP WITH ROBUST SECURITY

Who Else Will Protect You from Cyberthreats?

As your trusted tech partner, our team already knows how to keep your business operating at peak performance. But until we strengthen your IT foundation with a comprehensive cybersecurity solution, your business could fall victim to an attack.

LET US DEFEND YOUR BUSINESS FROM CYBERCRIME

Your Data is Not as Safe as You Think It Is

Small businesses are victims of the majority (64%) of today's attacks, and it's because they are inadequately protected. Expand your partnership with us to get the tools, services and expertise you need to minimize your exposure and reduce your risk.

A STRONG CYBERSECURITY FOUNDATION INCLUDES:

1

NONSTOP THREAT MONITORING AND PREVENTION

- We'll take down hackers and keep your data off the dark web
- We'll identify and respond to suspicious online behavior
- You'll learn how to fortify your security ecosystem

2

CUSTOMIZABLE PROFILES AND RISK SCORING

- We'll customize your security alerts and notifications
- We'll address weaknesses surrounding remote access
- You'll receive a direct diagnosis of vulnerabilities and risks

3

A PROFESSIONAL SECURITY OPERATIONS CENTER (SOC)

- We'll keep an eye on your business 24/7/365
- We'll stop and disarm active threats in real-time
- You'll unlock access to top-tier security professionals

4

COMPLIANCE SUPPORT AND SOLUTIONS

- We'll protect your company's private data
- We'll improve your cybersecurity framework
- You'll spend less time worrying about noncompliance

HOW SECURE IS YOUR BUSINESS?

We'll worry about cybersecurity so you don't have to.

YOUR SOURCE FOR SECURITY SOLUTIONS

INVEST IN CYBERSECURITY | INVEST IN YOURSELF

- Adopt a dynamic approach to cybersecurity challenges
- Develop a pragmatic strategy for future-proofing your business
- Gain confidence and get the peace of mind you deserve

DON'T BE BLIND TO YOUR RISK

\$26.2 BILLION

Between 2016-2019, business email compromise (BEC) attacks caused organizations to lose more than \$26 billion.

-The FBI Internet Crime Complaint Center

\$200,000

On average, a single cyberattack can cost a small business more than \$200,000

-Hilcox Cyber Readiness Report

39 SECONDS

Hackers work around-the-clock, pulling off a successful cyberattack every 39 seconds.

-The University of Maryland

You trust us with your business IT needs because our friendly specialists are armed with the latest information.
