

HAPPY HAULER PRICE SHEET

At **Happy Hauler**, like most other hauling companies, we charge by volume for hauling most materials. The crew will give you an on-site, zero obligation quote for the total amount of what the hauling job will cost. This all-inclusive quote includes all recycling/dump fees and refuse taxes charged by the city.

We have two different options for the size of dump truck you need.

Whether the Standard Dump Truck or the Larger Dump Truck is dispatched to your location, you will pay the very same rate by volume.

STANDARD HAULING TRUCK

Our standard truck has a **17.77 cubic yard capacity** - the equivalent capacity of **7.1 full size pickup trucks!**
All inclusive labor and dumping fees, **up to 3,000 lbs** of materials.

MINIMUM	1/8	1/4	3/8	HALF TRUCK	5/8	3/4	7/8	FULL TRUCK

ADDITIONAL PRICING INFORMATION

There are a few things may raise or lower the final price of a job.

We will let you know **BEFORE** the job takes place whether any of these fees will apply.

Very Heavy Material Fee

- Dump fees increase as the weight of a load increases. To cover these costs, we will charge an extra fee to haul away very heavy debris such as water-sogged waste, dirt, concrete, tree trunks, bricks, and other dense materials.

- Depending on the weight of load, \$50-\$100 additional for heavy materials; construction or demolition debris

Heavy materials are priced as follows:

1st Cubic Yard:	\$200
2nd Cubic Yard:	\$100
3rd Cubic Yard	\$100 and so on.

A half hour of labor with two crew is included with each cubic yard.

Additional Labor Charges

We include 1.5 free hours of labor for full-truckload jobs (with our large truck) and 1 free hour of labor for full truckload jobs with our standard truck. We charge an additional \$45/hour per crew member on site for jobs that take longer than the allotted time.

Jobs that do not require any junk removal, where our crew performs other services, are priced on an individual basis.

At recycling facilities some items have a recycling fee attached, and this is will be reflected in your bill as an additional charge that corresponds to the exact amount of money the recycling facility charged us.

- The fee for **refrigerators, freezers, and air conditioners is \$30 per item.**

Removal and recycling of **fluorescent bulbs cost 25 cents per linear foot.**

To dispose of latex paint, it first has to be processed into a solid form before you can take it to the dump. We can process the paint for you at an additional **\$10 per gallon of liquid latex paint.**

If you have a lot of paint, some free time & you'd prefer to process it yourself, email us and we can provide you with some free information on how to quickly and cheaply process the paint.
