

Reynolda Presbyterian Church Addition and Renovation

- New Atlantic has worked with Reynolda Church EPC since 2003 on various historical renovations and addition projects from copper roof replacement, classroom renovations, and foundation repairs.
- Reynolda Church is over 90 years old and is a historic landmark in the famed Reynolda Village. This structure had not been touched in over 40 years until New Atlantic performed interior and exterior renovations. We were selected early on to partner with the church for their new Worship Center and Festival Hall.
