

NC State University Randall B. Terry, Jr. Companion Animal Hospital

Healthcare

- New Atlantic constructed a new, 2-level veterinary medical hospital and was attached at each level by a pedestrian connector to the existing hospital.
- The interior houses 30 exam rooms, 10 surgery suites, 3 emergency exam rooms, intensive care unit, pharmacy, isolation rooms, 4 ultrasound units, biplane fluoroscopy unit, canine bone marrow transplant unit, teaching areas, and service and utility spaces.
- Site work included landscaping, hardscaping, and 130 parking spaces. Utility work included an extension of all services from the building to the existing infrastructure tunnel under William Moore Drive.
