

North Carolina Correctional Institution for Women New Healthcare Facility

- A 3-story medical center that provides inpatient acute care, ambulatory care, and mental health services for the inmate population. The facility accommodates 150 beds; 80 medical and 70 mental health.
- The medical area of the facility includes an outpatient/ambulatory care medical clinic that includes physical therapy, pharmacy, dental, laboratory, triage, exam, and procedure rooms; radiology, chemotherapy, and dialysis rooms.
- The assisted living area accommodates 42 medical beds with an additional 38 general medical beds located on the second floor of the building.
- The mental health section is subdivided into 2 areas; 1) outpatient mental health clinic treatment area for counseling and treatment and 2) inpatient mental health clinic containing 70 beds serving 3 distinct units: crisis stabilization (10 beds), intensive care (36 beds), and residential housing (24 beds).
- Special system integration was required that included card access, duress, CCTV, intercom, fire alarm, and HVAC controls.
