

# New College Institute Building on Baldwin

- The 3-story building features administrative, academic teaching and training, grand hall and community, and advanced manufacturing spaces.
- Prominent design features include a “freestanding living history wall” with photos and information recalling the history of Martinsville, Henry County, and the Baldwin Block.
- There is a large glass window that overlooks a large room on the first floor with industrial bays that will have ceilings 30 FT high and at least 6 items of high-tech industrial equipment.
