

Forsyth Technical Community College Career Center/Administration Facility Renovation Phase 2 B

- New Atlantic performed the renovation of the 185,524 SF, 2-story Career Center/Administration Facility.
- Interior renovations included hazmat abatement, selective demolition, creation of new classrooms, office/conference room spaces, childcare center, and manufacturing training space, and MEP upgrades.
- Exterior building renovations included a complete roof replacement, precast concrete stair replacement, and precast concrete/masonry repairs.
- New construction consisted of relocating 2 greenhouses from the main campus and a new horticultural storage building. Sitework included partial demolition of infrastructure improvements, new curb and gutter, storm water drainage, utilities, and asphalt paving.
