

Charlotte-Mecklenburg Schools Newell Elementary School Replacement

- New Atlantic constructed a new, 88,147 SF CMS Newell Elementary School Replacement project with architect Perkins Eastman. The design of the facility utilized the majority of the 22-acre site.
- The existing site terrain has multiple peaks and valleys with elevations varying from 675 FT to 744 FT above sea level.
- To achieve final site grades removal of 78,000 CY of soils and 7 large site retaining walls were required.
- The school is home to 800 students.
