

Paladin Services

Unparalleled Expertise

CSI helps businesses eliminate IT worries and reduce maintenance efforts with seamless, scalable solutions built on the expertise we've established over the last 30 years.

Managing Your Peace of Mind

In today's world, IT is the backbone of your business. But constant changes, increasing complexity and security threats make running your IT systems more difficult. Paladin reduces operational expenses and maximizes staffing resources by allowing our experts to be responsible for the management and maintenance of your IT infrastructure so you can focus on running your business.

The Extra Mile

Anyone can wait for a problem to occur and respond. Rather than allow a major failure to occur, we go the extra mile to identify and solve potential problems before they become mission-critical issues.

Let CSI help you manage your network, servers, communication systems and remote office connectivity with Paladin. Our suite of IT services can help you stay competitive with:

- Round-the-clock monitoring of your most vital systems
- Remote diagnosis and resolution of issues before they become critical
- Secure, remote access of your network worldwide
- Updated protection from potential threats to your network
- Protection of your most critical business data
- Strategic approach to your IT infrastructure as you grow

The Paladin suite of IT management services includes:

- Remote Monitoring
- E-Mail Defense
- E-Mail Archiving
- Remote Support
- Web Defense
- Remote Backup

Our Promise

By partnering with CSI, our clients know the job will be done right the first time, every time, with minimal interruption.

With CSI you'll never have to go it alone.

That's our promise.
