TECHNOLOGY.

The **ECOSYS M3040idn** provides small to mid-sized businesses with powerful document imaging capabilities. It offers the standard features you expect, including 42 ppm crisp black and white printing, copying and color scanning, but its capabilities extend far beyond that. A 7" color touch screen control panel redefines job efficiency by storing your routine tasks. It also streamlines access to business applications that bring added capabilities to your document workflows. Optional wireless and standard mobile printing and scanning capabilities enable access wherever your business takes you. As importantly, ECOSYS long life consumables and an impressive drum yield deliver the economical and ecological solution making this device the smart choice for your business.

ECOSYS TECHNOLOGY

KYOCERA's objective is to manufacture superior products with a low Total Cost of Ownership (TCO) and minimize the impact on the environment. ECOSYS printers incorporate a patented long life drum which is separate from the toner container, eliminating drum replacement when toner is depleted – and reducing landfill waste. ECOSYS printers provide a printing solution that incorporates long life consumables and one of the lowest costs per print. The operating costs of traditional cartridge-based printers can easily exceed many times the original purchase price during the life of the product.
