

## City of Phoenix MTA Program Professional Services Consulting

PHOENIX, AZ

CLIENT	<b>City Of Phoenix</b>
GC	<b>SanTrac Technologies Inc.</b>
SCOPE BUDGET	<b>\$90,942</b>
SECTORS	<b>Local Municipal Government</b>

## PROJECT SUMMARY

SanTrac Technologies provided Information Technology Systems consulting to small businesses enrolled in the City of Phoenix Management and Technical Assistance (MTA) program. The City's MTA program is funded by the U.S. Department of Housing and Urban Development (HUD) that has as its objective the creation of jobs for Low and Moderate Income (LMI) persons.

## SCOPE OF WORK

- Information Technology Systems Consulting
  - Assess and recommend computer requirements to help improve Client's overall management practices and procedures, including possible implementation assistance.
  - Assess and recommend information technology changes to improve the efficiency and effectiveness of internal management and operational reporting systems and procedures.
  - Assess and recommend information technology systems solutions for cyber security related threats.
  - Provided information and possible resolutions with existing computer equipment.
