

Surveying Services

Our firm has the experience of five Professional Land Surveyors, four licensed in Nevada and one licensed in California. Our team of licensed land surveying professionals has a strong and comprehensive background in northern Nevada and eastern California. Several members have more than 25 years of land surveying experience.

All of our professional land surveyors have expertise in generation and review of final maps, parcel maps, reversion to acreage maps, amended maps, lot line adjustments, mergers and certificates of compliance.

LIDAR Validation Survey, Carson Valley, NV

Survey Services Include:

- Tentative Parcel Maps
- Tentative Subdivision Maps
- Final Maps
- Strip Surveys
- Aerial Topographic Surveys
- Legal Descriptions
- Hydrographic Surveys
- Boundary Surveys
- Record of Surveys
- Lot Line Adjustments
- Certificates of Compliance
- Reversion to Acreage Maps
- As-Built Surveys
- Construction Staking
- Right-of-Way Surveys
- Horizontal and Vertical Control Networks
- ALTA Surveys
- Boundary Surveys
- Field Topographic Surveys
- LIDAR Validation Surveys
- Digital Utility Database Mapping
- Patent Research
- Coverage Mapping
- Amended Maps
- Water Rights Mapping

Our survey department handles a variety of surveying assignments, including the use of traditional survey and Global Positioning System (GPS) methods for surveying projects. Mapping is prepared for AutoCAD or ArcMap (ArcView/Arc Info) GIS compatible formats, and LIDAR validation surveys.

Having professional survey staff in-house is invaluable for completing projects in a timely and cost-effective manner. For more information on how R.O. Anderson can assist you with your project, please call Matt Bernard, P.L.S. at 775.782.2322 or email us at info@roanderson.com
