Preferred Intermediaries offers Foreign Commercial Packages

Do you have people or products going overseas?

The exposures of many U.S. aerospace operations don't stop at the U.S. border. Indeed, these businesses often have substantial foreign risks, arising from both employees and operations abroad.

Coverage Parts

- Foreign Commercial General Liability
- Foreign Automobile Liability
- Foreign Voluntary Compensation
- Travel Accident and Sickness
- Commercial Property
- Kidnap, Ransom & Extortion
- Marine Ocean Cargo
- Commercial Crime
- Political Risk

In the past, assembling the right insurance and services to address these overseas exposures has been a complicated process. Now, we can offer a far simpler — and far-reaching — solution: The AIG Aerospace WorldSource Foreign Commercial Insurance Package.

AIG Aerospace WorldSource provides U.S.-based aerospace operations with a single-point of access to key foreign commercial insurance coverages and vital benefits for employees working or traveling outside the U.S. Aerospace WorldSource customers can be confident that the right coverage will be there, where and when it is needed and that employees will have readily available access to the support they need for everything from medical emergencies and minor inconveniences, to legal issues that arise outside of their home country.
