

Hurricane Preparation Checklist

Hurricane season is from June 1st to November 30th. If you live near hurricane prone areas, have a plan of what to do before, during, and after a hurricane strikes. To get ready before a hurricane, here are some tips and suggestions to put a plan in place:

Actions to Take Before the Storm Season or Well Before a Storm

- Identify alternative means of transportation and alternative routes for all critical personnel, services, suppliers, contractors, etc., and establish relationships with lease and rental companies.
- Building and structures:
 - Review the structural integrity of each building and structure, including rotted wood, rusted metal, physical damage, loose/missing fasteners, etc. Replace or repair all damaged, missing or compromised components.
 - Inspect roof coverings, perimeter flashings, gutters, drains, ventilators and other roof-mounted equipment.
 - Inspect exterior wall coverings for attachment, damage and weather tightness.
- Fire protection
 - Fire water tanks should be inspected for structural integrity.
 - Ensure that all fire protection equipment is serviced and operational.
- Emergency equipment
 - Make arrangements for several forms of emergency communications including cellular phones, two-way radios, ham radio operators, etc.

When a Storm is Imminent

- Assemble the hurricane emergency response team and supplies and equipment at a designated safe location on site. Consider the following:
 - Emergency lighting
 - Lumber and nails
 - Sandbags
 - Portable pumps and hoses
 - Emergency generators
 - Roofing paper
 - Caulking compound
 - Tarps and rope
 - Manual and power tools
 - Shovels, axes, etc.
 - Saws and chain saws
 - Emergency telephone list(s)
 - Tape for windows, doors and other openings
- Protect important paper records from wind, rain, flooding and debris.
- When/if the decision is made, shut down operations and processes safely in accordance with OEM recommendations.
- Back up important computer data and records and store backups in a safe location, preferably offsite.
- Release non-essential staff, or direct to a designated safe location.

- Building and structures:
 - Fill all aboveground tanks with product to improve stability and minimize damage from wind.
 - Anchor and tie down all structures, equipment, and storage in the yard including small buildings and sheds, trailers, conveyors, mobile equipment, lumber, process equipment, etc. Move smaller objects inside if possible.
 - When possible, move important equipment and stock if subject to potential wind, collapse, water or other weather exposure. If equipment or stock cannot be relocated consider additional protection with lumber, tarps, ropes, etc.
 - Board up windows, operate shutters, tie down equipment, etc. as needed
- Emergency equipment
 - Ensure emergency generators, water pumps, etc., are operational and fuel tanks are full.
 - Clean all catch basins, drains, and drainage ditches. Lower the levels of retention ponds. Ensure all sump pumps are operational and connected to emergency power.
- Fire protection
 - Ensure all fuel tanks are full and all outside fire protection equipment is secured.
 - Verify all fire water tanks and reservoirs are full.

American International Group, Inc. (AIG) is a leading international insurance organization serving customers in more than 130 countries. AIG companies serve commercial, institutional, and individual customers through one of the most extensive worldwide property-casualty networks of any insurer. In addition, AIG companies are leading providers of life insurance and retirement services in the United States. AIG common stock is listed on the New York Stock Exchange and the Tokyo Stock Exchange.

Additional information about AIG can be found at www.aig.com | YouTube: www.youtube.com/aig | Twitter: @AIG_LatestNews | LinkedIn: www.linkedin.com/company/aig

AIG is the marketing name for the worldwide property-casualty, life and retirement, and general insurance operations of American International Group, Inc. For additional information, please visit our website at www.aig.com. All products and services are written or provided by subsidiaries or affiliates of American International Group, Inc. Products or services may not be available in all countries, and coverage is subject to actual policy language. Non-insurance products and services may be provided by independent third parties. Certain property-casualty coverages may be provided by a surplus lines insurer. Surplus lines insurers do not generally participate in state guaranty funds, and insureds are therefore not protected by such funds.
