Phone: (708) 597-5005
Fax: (708) 597-5091
Email: hts@htspc.net

Market:

Steel Fabrication

Issues:

- Current Workstations require updating to stay current with Operating systems, line of business applications and security.
- Server not operating at the speeds required, impacting production.

Solutions:

- Procured and installed new desktops with current operating system and line of business application updates
- Upgraded the server to add capacity allowing the server to operate efficiently through additions of memory and patches to the hardware and operating system

"This is our 3rd network project with HTS. Time and time again they consistently deliver the best in class products and services for our network operations."

Greg DelCotto, President
