***NATIONAL MORTGAGE NEWS PUBLISHES ARTICLE BY LOCAL
DATA SECURITY TECHNOLOGY EXPERT***

ROBERTSDALE, AL (April 19, 2016) - Business Information Solutions (BIS) is pleased to announce that *National Mortgage News* – a national publication designed for those in the mortgage industry - recently published an article written by Phillip Long, a local expert in the field of data security technology and owner of Robertsdale, AL-based BIS.

“As data security compliance guidelines continue to grow more stringent, companies will increasingly see the need for encryption solutions where data is present,” states Long. In answer to the call, BIS works with clients to implement a twofold approach by providing third-party cloud-based tools to provide remote encryption for all smartphones, laptops and tablets being used within the company, adding email security as well.

The entire article is available at:
