ITS – Integrated Telemanagement Services, Inc., announced today that CRN®, a brand of The Channel Company, has named ITS to its 2018 Managed Service Provider (MSP) 500 list in the Pioneer 250 category. The MSP 500 list recognizes North American solution providers with cutting-edge approaches to delivering managed services.

SIM VALLEY, CALIF. (PRWEB) MARCH 23, 2018

ITS – Integrated Telemanagement Services, Inc., announced today that CRN®, a brand of The Channel Company, has named ITS to its 2018 Managed Service Provider (MSP) 500 list in the Pioneer 250 category. This annual list recognizes North American solution providers with cutting-edge approaches to delivering managed services. Their offerings help companies navigate the complex and ever-changing landscape of IT, improve operational efficiencies, and maximize their return on IT investments.

In today's fast-paced business environments, MSPs play an important role in helping companies leverage new technologies without straining their budgets or losing focus on their core business. CRN's MSP 500 list shines a light on the most forward-thinking and innovative of these key organizations.

The list is divided into three categories: the MSP Pioneer 250, recognizing companies with business models weighted toward managed services and largely focused on the SMB market; the MSP Elite 150, recognizing large, data center-focused MSPs with a strong mix of on-premises and off-premises services; and the Managed Security 100, recognizing MSPs focused primarily on off-premise, cloud-based security services.

ITS was chosen to be included on the list and recognized in the MSP Pioneer 250 category because they have been focusing on and delivering solutions to the small and medium business market since 1990.

The relationship and trust we build with our customers is key to their ability to rely on us and we believe it is what truly sets us apart from being just another technology provider.

The company has evolved over the years along with the technology evolution. The managed services they offer today look much different from the managed services they offered back in the 1990s but the base of how the business was built, helping small medium businesses run more efficiently is still a key goal of ITS today. The bottom line, ITS simplifies technology so their customers can focus on their business and customers; not worrying about their technology. “Managed service providers have become integral to the success of businesses everywhere, both large and small,” said Bob Skelley, CEO of The Channel Company. “Capable MSPs enable companies to take their cloud computing to the next level, streamline spending, effectively allocate limited resources and navigate the vast field of available technologies. The companies on CRN’s 2018 MSP 500 list stand out for their innovative services, excellence in adapting to customers’ changing needs and demonstrated ability to help businesses get the most out of their IT investments.”

Sharon Woods, President & CEO of ITS said “ ITS is proud and honored to receive this award for the second year in a row. Sharon went on to say that, “The team at ITS’ main goal is to add value to our customers’ businesses on a daily basis by allowing them to focus on their business and their customers; being confident that ITS is proactively managing their IT, bandwidth and voice solutions. The relationship and trust we build with our customers is key to their ability to rely on us and we believe it is what truly sets us apart from being just another technology provider.”

The MSP500 list will be featured in the February 2018 issue of CRN and online at <http://www.CRN.com/msp500>.

About ITS – Integrated Telemanagement Services, Inc.

ITS is more than your typical Managed Service Provider. Since 1990 ITS has been providing small and medium-sized businesses IT and telephony solutions, services and support that help organizations achieve more growth and greater success. Our proactive approach to support not only simplifies technology but also means less hassle, less downtime and simplified systems that enable your business to streamline processes and communication, for an enhanced user experience. ITS is a small business and it is this which we believe gives us our distinct advantage. Our size enables us to be agile, flexible, and proactive - which means we have the ability to adapt business models rapidly and efficiently when required. We’ll quickly react to problems and changes in the business environment or technology and provide fast solutions.
